"Net Acres" are the areas of the above-described land available to TENANT for cultivation exclusive of farm roads, canals, "V" Ditches and windrows. Landlord reserves the right to, at any time after harvest and prior to planting, reduce the acreage available to tenant as set forth above. Upon such reduction, the rent shall be reduced by $115 dollars per net acre reduced.

The terms and conditions of this Agreement are as follows:

1. **TERM.** This lease shall begin on July 1, 2020 and continue through December 31st, 2023. Owner reserves the right to delay the beginning if necessary to allow the current Tenant to harvest crops in the field.

2. **USE.** Tenant's covenants with OWNER that he shall use and occupy said premises for agricultural purposes only. No other rights are conveyed. TENANT shall plant soybeans, winter wheat, and/or corn on all of the Net Acreage. It shall be a material breach of this lease to leave any acreage unplanted without the written consent of OWNER.

3. **TENANT OBLIGATIONS.** TENANT shall use and apply at his sole expense such fertilizer, pesticides, seed, soil supplements, trace elements and herbicides (including analysis quantities, and method of application) as may be mutually agreed upon by OWNER and TENANT, and in conformity with reasonable and generally accepted agricultural practices, and he shall furnish at
his sole cost and expense all equipment, fuel and labor that shall be necessary to farm the above described premises.

4. **ASCS REGULATIONS. TENANT agrees to comply with all federal and state rules and regulations of the Agricultural Stabilization and Conservation Service (the "ASCS"). The parties agree that (a) this lease is to be construed as a Cash Lease, (b) OWNER is not construed as an Operator or Producer, and (c) TENANT is not to be construed as a Custom Farmer, Joint Venturer, or Partner as those terms are defined or described in the ASCS Handbook.**

5. **NO ASSIGNMENT. TENANT shall not sell, mortgage, assign, or in any way transfer his rights under this lease or in the crops growing, or to be grown, upon said land, without written permission from OWNER.**

6. **RENT.** For each year of the lease term, a cash rent of $40,132.70 ($115 per leased acre) will be paid by the TENANT to the OWNER on January 20 of each year. A prorated payment for the dates of July 1st, 2020 to December 31st, 2020 will also be due July 1st of 2020.

7. **LANDLORD'S LIEN.** No lien created by TENANT shall ever be or become prior to OWNER'S Landlord's Lien. TENANT agrees that he is able to use and possess said premises pursuant to this Lease and understands that under no circumstances will OWNER release, waive or subordinate its Landlord's Lien provided by law, and TENANT will not request such action or accommodation by OWNER.

8. **RIGHT OF ENTRY.** OWNER shall have the right to inspect said crops at all times and if TENANT fails, neglects, or refuses to farm said land in a good husbandry-like manner, spray, dust, rotate or properly cultivate said crops when needed, make every reasonable effort possible to control weeds and grass growing in crops and cultivate, gather and harvest the same, OWNER may perform the same and deduct reasonable and necessary expenses from TENANT'S share of the crop.

9. **FIRE.** TENANT will not burn, or cause to be burned, any windrows, hedgerows, ditch banks, fields, or stubble or otherwise start or cause to be started any fire upon the above described land without first obtaining the written consent of the OWNER.

10. **MAINTENANCE.** Unless otherwise agreed by Owner, (i) TENANT agrees that prior to the planting of each crop, except soybeans following wheat, he will, at his sole expense, mow all field or "V" ditches on the above-described land, and the interior slopes or side of all collections canals on and bounding the above described land.

   (ii) TENANT agrees that prior to the planting of corn and soybeans, he will, at his sole expense, clean out either by backhoe or Donid Ditcher, the field or "V" ditches on the above-described land as needed. OWNER may at its option but shall not be required to participate in the cost if in the OWNER'S opinion the activity will enhance the farm beyond the lease term.

11. **DRAINAGE.** TENANT agrees to compensate US Fish and Wildlife for the drainage of the property under such terms and conditions as TENANT, OWNER, and US Fish & Wildlife agree upon. The
fair market value of said compensation, to be determined by OWNER, USFWS and TENANT, shall be deducted from the rents due OWNER by the TENANT.

12. HUNTING. OWNER, for itself, its successors and assigns, reserves unto itself all hunting rights and privileges, including the right to post the land hereinabove described and the right to designate said lands as part of any state or federal conservation or public hunting program or plan; and TENANT agrees that he will in no way interfere with the exercise of such rights and privileges by OWNER, its successors or assigns, licensees or invitees. The TENANT has the right to have the cultivated land, but not the woods and roads, posted to protect unharvested crops from hunters. Tenant shall not hunt or allow hunting upon the property.

13. MINERAL RIGHTS. Nothing in this Lease shall confer upon TENANT any right to minerals underlying the Leased Premises, but same are hereby reserved by OWNER together with the full right to enter upon the Leased Premises and to bore, search, and excavate for same, to work and remove same, and to deposit excavated rubbish and with full liberty to pass over the Leased Premises with vehicles and to lay down and work any railroad track, or tracks, pipelines, power lines, and structures as may be necessary or convenient for the above purposes. OWNER agrees to reimburse TENANT for any actual damage TENANT may suffer for crops destroyed by these activities and upon written request of TENANT to release TENANT from any obligation to continue farming the Leased Premises if development of mineral resources interferes materially with TENANT'S opportunity to make a satisfactory return.

14. NAME AND ADDRESS OF CROP PURCHASER. TENANT shall provide written notice to OWNER no less than seven (7) days prior to the sale of TENANT'S crops grown on the premises listing name, address and telephone number of all purchases. TENANT is aware that failure to properly advise OWNER of the identity of purchasers may subject TENANT to a fine of $5,000.00 or 15% of the value of the crop as described in Paragraph 1324 (h) of the Food Security Act of 1985.

15. ESTOPPEL CERTIFICATES. TENANT shall, upon not less than ten (10) days prior written notice from OWNER, execute, acknowledge and deliver to OWNER, in form reasonably satisfactory to Landlord and/or OWNER'S mortgagee, a written statement certifying (if true) that TENANT has accepted the Leased Premises, that this Lease is unmodified and in full force and effect (or if there have been modifications, that the same is in full force and effect (or if there have been modifications), that the OWNER is not in default hereunder, the date to which the rental and other charges have been paid in advance, if any, and such other accurate certification as may reasonably be required by OWNER or OWNER'S mortgagee, and agreeing to give to any mortgagee of Landlord copies of all notices by TENANT to OWNER. It is intended that any such statement delivered pursuant to this paragraph may be relied upon by any prospective purchaser or mortgage of the Leased Premises or Real Estate and their respective successors and assigns.
16. OWNER designates the County Manager or his designee as its agent in all matters herein except those recited in paragraphs 12 and 13. This agency may be terminated at any time and TENANT shall receive written notice thereof.

17. EARLY TERMINATION. OWNER may, at its sole discretion, terminate this Lease Agreement prior to the term provided herein. Notice of such termination shall be provided in writing by OWNER to TENANT, and shall be delivered to TENANT at least 90 days prior to such termination date. Upon termination that is not for cause, Tenant shall be authorized to harvest crops in the field and any prepaid rent shall be prorated from the date harvest is complete.

18. TENANT'S WARRANTY. Tenant acknowledges warrants and agrees that Tenant is an experienced farmer, is familiar with usual and customary farming practices, with crop rotation best practices and will farm the property according to customary farming and crop rotation practices. Breach of this condition shall constitute a material default and upon sue default, Landlord at its sole discretion may immediately terminate this lease and Tenant shall have no other or further rights hereunder, notwithstanding the condition or existence of crops in the field.

19. TERMINATION FOR CAUSE. Owner may terminate this lease for cause upon any breach of the terms and conditions of this lease by TENANT. OWNER shall give TENANT ten days notice of such termination. Upon such termination, TENANT shall have no further rights of entry upon the property or rights under the terms of this lease. Any crops remaining on the premises after such termination shall become the property of owner and owner may destroy or harvest and sell such crops as liquidated damages for TENANT's breach.

IN TESTIMONY WHEREOF, TENANT has hereunto set his hand, and OWNER has caused this Agreement to be executed in its name. This Agreement is executed in duplicate counterparts, one of which is retained by each party.

The Economic Improvement Council, Inc. (applicant) has conducted a Community Assessment of its service area within the past three (3) years utilizing the following method(s):

(Check one or more of the following methods)

☐ Surveys of the community(s) - door to door, telephone, etc.
☐ Review of records - agency intake forms, program participant records, etc. (may be used in at least one other type of needs assessment; will not need compliance on its own)
☐ Review of demographical information - U.S. Census, welfare statistics, unemployment statistics, etc.
☐ Discussions/information/testimony provided by individuals and community members - social service professionals, agency staff, program participants, etc.
☐ Public meetings to solicit input on community needs
☐ Other (Describe)

The most recent Community Assessment was completed on: 11-25-2019

The Community Assessment was completed by: Economic Improvement Council, Inc.

It is expressly understood that this Community Assessment should include community and consumer input. It is to be used as a basis for prioritizing the needs of the low-income population in the service area and for planning the applicant's projects to meet those needs.

It is further understood that documentation validating that a Community Assessment was completed and is to be retained by the applicant and is subject to review by the Office of Economic Opportunity.

Please provide a 4-5 sentence summary of your most recent Community Needs Assessment:
Recently the Economic Improvement Council, Inc. conducted a Community Needs Assessment among the 10 counties in which the CSBG Program serves. This was done, door to door, via email, text and phone. Documentation was gathered, viewed and prioritized. Low-income individuals in the community and their families were very cooperative in letting their voice be heard by way of questionnaire. As we move forward to address the issues and concerns of the community, we know that the community approves of our efforts as we fight against those barriers that keep individuals and families from living a better quality of life.
The following is a list of needs as prioritized, with community input, through the needs assessment process.

PLANNING PROCESS NARRATIVE

Fiscal Year 2020 - 2021

1. Explain in detail how each of the following was involved in the planning and development of this strategic plan:

   a. **Low-income Community:** The low-income participated in communities and their local County Commissioners meetings to determine the priorities, needs and resources that were available to assist them. The result of the meeting indicated that the Self-Sufficiency Project would be the number one priority for the Community Services Block Grant Program.

   b. **Agency Staff:** The Community Services Block Grant staff acted as resource providers and facilitators during the planning process. The staff did not influence the low-income families of their decisions. They offered suggestions and provided technical assistance as requested by the target communities and residents.

   c. **Agency's Board Members:** The Economic Improvement Council Board approved the Anti-Poverty planning process as presented by the Community Services Block Grant Director.

2. Describe how and what information was gathered from the following key sectors of the community in assessing needs and resources during the community assessment process and other times. These should ideally be from each county within your agency's service area:

   a. Community-based organizations;
   b. Faith-Based Organizations;
   c. Private Sector;
   d. Public Sector;
   e. Educational Sector;

3. Describe your agency's method and criteria for identifying poverty causes and list the identified causes. Also describe the methods and criteria used to determine priority and selection of strategies to be implemented that will address the poverty cause.

   a. The agency's method of identifying poverty causes was through the Census Statistics, County Assessments and the Poor Sectors Representation on the Economic Improvement Council Board. The HHS Poverty Guidelines are also used to determine the enrollment of families into the Family Self-Sufficiency Program.
Identifying poverty vary among different groups and family conditions. The following is a list of poverty causes in our Northeastern area:

- Lack of Education
- Lack of Industrial Development
- High incidence of single family households
- Lack of job training and adequate skill development
- Lack of adequate public and private transportation
- High incidence of job layoff
- Health and Mental Conditions
1. Lack of cost of living increases

b. The methods and criteria used to determine priorities and strategies is through an application process which will include: income, employment skills, education, health and resource availability.

4. Describe activities that your agency has undertaken to advocate for and empower low-income individuals and families to achieve economic independence and security.

The activities that EIC has undertaken to advocate and empower low-income individuals to achieve a greater sense of authority over their lives is through the implementation of the Limited Opportunities To Family Self-Sufficiency Project. Family enrollment along with positive guidance will give individuals and families the opportunity to make lifelong decisions in determining their own lives and future. To achieve economic independence and security, families will identify their own strengths and weaknesses. Case Managers will provide supportive services when needed and suggest ways to handle their future challenges.

5. Describe how your agency plans to make more effective use of, coordinate and form partnerships with other organizations and programs including: State welfare reform efforts; public and private resources, religious organizations, charitable groups, and community organizations.

The Economic Improvement Council plans to maintain a relationship with organizations serving low-income families/individuals. The agency's Board of Directors solicits representation from the community organizations including religious and charitable groups to comprise the private sectors of the Board.

The C3BG Case Managers will work with local churches, schools, teachers, health care, public housing organizations, community based organizations and job training for welfare recipients to help move towards self-sufficiency.

- State Welfare Form - Continue to have a rapport with Social Services
- Public and Private Resources - Attend meeting, send/receive referrals and follow-ups
- Religious Organizations - Send notifications to churches and organizations on our agency activities, etc.
- Charitable Groups - Volunteer our services when needed.
- Community Organizations - Attend meetings and build a rapport and maintain seats on various community boards.
Economic Improvement Council, Inc.

6. Describe how your agency will establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals, to avoid the duplication of such services and to fill identified gaps in services, through the provision of information, referrals, case management and follow-up consultations.

EIC has a satellite office in each of the ten counties. These offices are primarily "One Stop" Centers that provide information and services on all of EIC programs and all other programs in the surrounding area. These satellite offices are shared by other agencies and programs to help fill in the service gaps.

EIC will continue to make referrals to other agencies that will meet the need of our customers. Services that are provided through the satellite offices would include eligibility determination, referrals and follow-ups consultations. The mutual relationships between agencies would help to prevent duplication of services. It will provide an incentive for other public and private agencies to use our offices for their information and referral activities.

7. Provide a description of how your agency will support innovative community and neighborhood based initiatives related to the purposes of the Community Services Block Grant (fatherhood initiatives and other initiatives with goal of strengthening families and encouraging effective parenting).

The mission and philosophy of the Economic Improvement Council is hinged upon assisting families to become self-sufficient. The Self-Sufficiency Program as proposed is designed to support innovative community and neighborhood initiatives geared to remove barriers to self-sufficiency.

The Community Services Block Grant staff will support innovative community and neighborhood based initiatives by providing transportation, promotional advertisement, being in attendance, serving as a volunteer and encouraging community support.

8. Describe activities that your agency has undertaken or plans to undertake, on an emergency basis, for the provision of such supplies and services, nutritious foods, and related services, as may be necessary to counteract conditions of starvation and malnutrition among low-income individuals.

In promoting community Food Drives, agency's collaboration with Food Banks, Churches and other organizations such as the Department of Social Services, local Head Start Programs, Food and Nutrition Programs and the Cooperative Extension Programs help with the conditions of starvation and malnutrition among low-income individuals. EIC Staff and Board Members currently occupy seats on other agency boards that provide nutritional assistance to low-income individuals.
9. Describe how your agency will coordinate the provision of employment and training activities with entities providing activities through statewide and local workforce investment systems under the Workforce Innovation and Opportunity Act. Provide the dollar amount of your allocation that will go towards employment training.

EIC will coordinate provision of employment and training activities through the job screening process. The agency will collaborate with other state/local employment agencies such as: Temp Agencies, Regional Job Fairs, Colleges, Universities, and other businesses to provide referrals for employment and training activities.

All agencies will promote the development and implementation of a more unified system of measuring accountability and performance.

10. Describe how your agency will ensure coordination with the emergency energy crisis intervention program under Title XXVI (relating to low-income home energy assistance).

The Economic Improvement Council has developed a rapport with the county Department of Social Services. EIC will make referrals to families/individuals that are in need of emergency to the energy crisis intervention program. Through consistent coordination with the county Department of Social Services information will be disseminated to other departments.

11. Describe the needs of low-income youth and your agency’s efforts to promote increased community coordination and collaboration in meeting the needs of low-income youth.

The involvement of youth age is an integral part of the fabric of EIC and the CSC Program. EIC plans and coordinates activities regularly with other programs and agencies such as the National Youth Sports Program, local schools, Colleges and Universities. The needs of our youth are varied and generally reflects the needs of the greater community. Several needs have been identified and are listed below:

- Transient Families
- Family Isolation
- Lack of Recreational Facilities
- School Dropout Rate
- Child Abuse and Neglect
- High Delinquency Rate
The Economic Improvement Council involves a multitude of public and private resources to combat the needs for youth.

- Public Schools
- Department of Social Services
- Albemarle Rehabilitation Center
- Albemarle Speech and Hearing
- Private Physicians
- Partnership for Children Centers
- Partnership for Children (Smart Start)

To improve coordination in meeting the above needs, the Council provides expertise and guidance in the development of youth programs and setting priorities for youth involvement.

12. Describe your agency’s method for informing custodial parents in single-parent families that participate in CSBG programming about the availability of child support services. In addition, describe your method for referring eligible parents to the child support office(s).

The method used to inform custodial parents in single-parent families of availability of child support is done during the initial contact assessment. During that process, the Case Managers are made aware of whether they receive child support services or not. If a custodial parent participating in the CSBG Program is not receiving child support, the question is asked if they are interested in applying for the support benefits.
Community Services Block Grant Family Self-Sufficiency (FSS) (3-year Strategic Plan)

The FSS Program is designed to empower people to take control of their lives by becoming independent and productive members of their community. Section 8 Housing - (5 year plan)

The Housing Choice Voucher program is the federal government's major program for assisting very low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market. Since housing assistance is provided on behalf of the family or individual, participants are able to find their own housing, including single-family homes, townhouses, mobile homes, and apartments. The participant is free to choose any house that meets the requirements of the program.

A housing subsidy is paid to the landlord directly by us on behalf of the participating family. The amount of the subsidy is determined by the family's income, number of household members, and allowable deduction in combination with the contract rent price and utility cost for the home they select.

Additional programs for Housing Choice Voucher program participants may include Family Self-Sufficiency and Homeownership.

Goals:
1. Encourage families to seek housing in areas outside of poverty neighborhoods
2. Expand owner outreach
3. Educate voucher holders on selection of more energy efficient housing
4. Provide and expand referral services to local community resources addressing various needs of low-income housing
5. Continue Family Self-Sufficiency and enrollment

Weatherization

It is the mission of the Weatherization Program to reduce energy costs for low-income families, particularly for the elderly, people with disabilities, and children, by improving the energy efficiency of their homes while ensuring their health and safety. The services offered by the Weatherization Program can reduce the average annual energy costs by $300 per home. Families with incomes below 200% of the Federal Poverty Level or households with at least one member receiving cash assistance payments under SSI or TANF are eligible for weatherization services.

Typical Services
- Performing tune-ups and repairs to heating and cooling systems.
- Improving health and safety conditions by addressing carbon monoxide levels and combustion safety
- Sealing major air leaks
- Installing a smart thermostat
- Insulating floors and attics
- Replacing existing lighting with energy efficient bulbs

Goals

1. Utilize an Energy Assessment Tool to determine the need for energy upgrades to homes
2. Provide education to each eligible client to insure they are knowledgeable of the upgrades that have taken place in their home
3. Focus on energy related health and safety issues present in the home
4. Ensure that all services provided will be done with a spirit of excellence and professionalism

**Agency Name:** Economic Improvement Council, Inc.

**Project Name:** Family Opportunity To Self-Sufficiency
1. Describe the role and responsibilities of the following in the assessment and evaluation of agency programs.

   a. Board of Directors: The Board of Directors participates in the development, planning, implementation, and evaluation of the Community Services Block Grant program which serves the low-income community. The Board delegates the responsibility of the day-to-day operation of the agency to Executive Director who then assigns authority to the CSBG Director operate and make sure the program is managed effectively. The Board of Directors receives reports periodically to ensure that the goals established are being properly implemented. They also make the necessary adjustments to redirect or modify the program when necessary.

   b. Low-Income Community: The low-income community receives reports on a regular basis via local community organizations and the CSBG staff. The low-income community will have the opportunity to make suggestions regarding the implementation of the program. They are also given the opportunity to appear before the Board of Directors and express their concerns regarding the administering of the program and its evaluation.

   c. Program Participants: Through a chain of command, program participants may express their concerns regarding the CSBG Program. Participants may request to meet with the Executive Director or the Board of Directors. The agency will conduct surveys to assess the quality of the program as a means of involving participants and obtaining their opinion regarding CSBG standards and the quality of service being offered.

   d. Others: Other citizens of community groups may express concerns regarding the implementation of the CSBG Program by contacting the Executive Director. Any citizen not satisfied with the implementation of the program may appeal to the agency's Board of Directors. These individuals can also express their concerns or ask for clarification regarding any and all program implementation standards.

2. Describe the systematic approach for collecting, analyzing and reporting customer satisfaction data to the Board of Directors.

   The Case Managers provided customers with a Satisfaction Survey Form that was completed for quality services.
Outcome Evaluation: This is achieved by employing the Result Oriented Management and Accountability cycle (ROMA). During this evaluation stage, data will be analyzed and compared to benchmarks that have been set in place. The outcomes will be used to determine the effectiveness of the program, update annual and long-range planning, support agency advocacy, funding, and community partnership activities.

6. Summarize the results of the Board’s most recent self-evaluation. Describe how the information has been or will be used to develop the agency’s next Strategy for Eliminating Poverty. Indicate the timeframe and planned activities for the next evaluation.

The Board’s most recent self-evaluation involved the Board reviewing a CSBG quarterly report and 2018 Year End Report. The following outcomes were presented:

➢ The number of participants served
➢ The number of low-income families rising above the poverty level
➢ The average change in annual income per participant
➢ The number of participants obtaining employment and/or better employment
➢ The number of participants obtaining jobs with medical benefits.
➢ The participant average wage rate
➢ The number of participants completing education/training programs
➢ The number of participants securing standard housing
➢ The number of participants provided emergency assistance

In an effort of eliminating poverty, after the Board has completed self-evaluation, the agency will draw from the strengths of those areas that proved to be effective and eliminate areas that proved to be weak and less effective.

The next time frame evaluation will begin July 1, 2020.

Lawmakers OK absentee ballot changes

Democrats also are in favor of the measure because it permanently restored early in-person voting on the last Saturday before state elections — something Republican lawmakers tried to end last year. The bill would also allow some counties to keep using touch-screen-only voting equipment for the March primary. They otherwise had to be out of service by this December and replaced.

Much of the legislation attempts to combat illegal ballot "harvesting," which occurred in the 9th Congressional District campaign, according to evidence collected in a State Board of Elections probe.

Leslie McCall Dowless, a political operative working with Republican candidate Mark Harris, gathered hundreds of absentee ballots from Bladen County voters with the help of his assistants, witnesses told state officials.

Dowless' workers testified that they were directed to collect blank or incomplete ballots, forge signatures on them, and even fill in votes for local candidates.

The consensus legislation keeps a promise to combat such fraud in the future, a key Republican sponsor of the bill said.

"Secure elections are the most fundamental tenet of a democracy, and the policies we enacted today are intended to (1) ensure the activity that took place last year cannot happen again," said Sen. Ralph Hise, a Mitchell County Republican, in a news release.

The EBC-GSSG Program in Edenton, NC plans to apply for the continuation of funds from the N.C. Department of Health & Human Services in Raleigh, NC, in the amount of $286,826 for the period of July 1, 2020 - June 30, 2021. Funds will be used to alleviate the barriers of poverty for low-income families in the following counties: Caswell, Chowan, Craven, Dare, Gates, Hyde, Pasquotank, Perquimans, Tyrrell and Washington, through the provision of comprehensive case management, which would include: employment, housing, budget counseling, educational/training, information & referral. Update on Dare County Revised Flood Maps

Description
I will update the Board of the status of the revised flood maps. We have received out letter of final determination from FEMA which sets an effective date for the maps in mid-2020. The Flood Ordinance also has to be updated. I will discuss the necessary procedures and the idea of a proposed local elevation standard for use in conjunction with the revised maps.

Board Action Requested
Instructions to staff to proceed with map adoption and updates to the Flood Ordinance to include consideration of local elevation standards.

Item Presenter
Donna Creef
Revised Flood Maps

- Six-month period for local adoption of revised maps, revised flood ordinance, and associated zoning amendments to several districts that use base flood as building height reference point.
Required Actions

- Ordinance revisions must be reviewed by Planning Board.
- Public hearings required as part of process. Due to scope of changes, additional meetings with interest groups and property owners will be held.
- Outreach activities to stress importance of flood insurance.
Map Changes

• AE zone--current maps--12,875 properties. revised maps--8,493 properties.
• Majority remaining in AE zone have lower base flood—AE8 to AE4.
• VE zones— current maps--1,828 properties. revised maps--124 properties. Many have been re-classified as AE zones.
• 2,890 properties re-classified as Shaded X or X zones.

Kitty Hawk has 389 structures in Zone AH and there will be 893 structures in Zone AO (County-wide).
Impacts of Maps

- Revised maps, when adopted, will be used for flood insurance rating purposes. Policies renewed or enacted after June 19, 2020 will be based on the new maps.
- Potential for decreased flood insurance rates.
- Property owners should talk to their insurance agents about best possible rate for their property when maps are adopted.
Impacts of Maps

- Overall 41% decrease in number of properties in flood zone.
- Shaded X and X zones do not require purchase of flood insurance with federally-insured mortgage.
- AE zone often called 100-year flood zone, Shaded X called 500-year flood zone, X zone is out of flood zone. Extremely misleading.
100-year Flood Zone

- Irene 2011
- Arthur 2014
- Hermine September 2, 2016
- Matthew October 8, 2016
- Michael 2018
- Dorian 2019
- Six events in less than 10 years
Impacts of Maps

- Significant number of properties reclassified as Shaded X or X zone. Some of these properties have flooded, in some instances repeatedly.
- Property owners will assume their property will not flood due to map changes and will discontinue their flood insurance coverage.
- Future map changes may revert to higher base elevations thus rendering structures non-conforming.

Recommended Response to Maps

- VE zones--1-ft freeboard above BFE – no change.
- AE and AO zones–3-ft freeboard above BFE or to a local elevation standard (LES).
- Shaded X and X zones-elevated to local elevation standard. Current target is 8 feet.
What is Correct Elevation?

- Historical review of previous flood maps.
- Consultation with local surveyors and engineers.
- Empirical knowledge of local flood events and elevation of impacted structures.
- Similar to BFEs of 2006 and other previous flood maps.

LES for Shaded X and X Zones

- Shaded X and X zone – elevation as if property was in an AE flood zone.
- First floor of living area (heated/conditioned space) at or above regulatory flood elevation (RFE).
- No heated/conditioned space in ground floor enclosures. Restricted to parking, access, and storage.
LES Regulations

- Regulatory flood elevation measured at bottom of lowest floor. Utilities must be elevated above the regulatory flood elevation.
- Flood vents required in areas below regulatory flood level.
- Elevation certificate required.
Examples—AE Zones

- AE zone--3 feet freeboard or elevated to 8 feet, whichever is higher.
- AE 6 plus 3 feet freeboard = 9 feet – first floor of living area at 9 feet.
- AE 4 plus 3 feet = 7 feet -- first floor of living area at 8 feet.
- Flood zone restrictions would also apply to areas below LES.
Shaded X – X Zone Examples

- Shaded X or X--Elevation to 8 feet unless natural grade is 8 feet or more.
- Natural grade--5 feet = first floor of living area at 8 feet since natural grade less than 8 feet.
- Natural grade--9 feet. Can build at natural grade since it is higher than 8 feet.
- Other flood zone restrictions would apply for areas below LES.
Existing Structures in Shaded X and X Zones

- Ground floor enclosures cannot be converted to conditioned space unless LES of 8 feet can be maintained.
- Lateral additions to existing structures – can be added at the same base elevation in effect at time of construction.
- Remodeling (no increase of footprint) -- at existing elevation of structure.
Next Steps

- Instruct Planning Director to begin ordinance amendment procedures for consideration of LES regulations.
- Implement outreach activities for revised flood maps and ordinance amendments.
- Report to DCBC in April 2020 with detailed version of amendments.

VOTE: AYES unanimous

ITEM 4 – UPDATE ON PROPOSAL FOR DEVELOPMENT OF DREDGE MATERIAL MANAGEMENT PLAN
Kenneth Willson, of APTIM Coastal Planning & Engineering, provided an update regarding the proposed study of spoil sites. Dredge material disposal needs for projects, not currently budgeted, need to be researched, especially since the Corps has approached County staff about capacity issues in the southern part of the Rollinson Channel, with a maintenance project slated for 2021/22. Additionally, a Corps project, around the same time, would target interior channels from Manteo to Wanchese. Updated proposals were presented to the Board, one based on the Rollinson Channel and the other based on Central Dare County channels, with need assessments, concept alternatives reviewed from Rodanthe to Hatteras Inlet, initial permitting applications and sediment analysis reports. Mr. Willson provided several area maps to provide imagery locations for dredge material management assessment. Alternative methods of disposal could include thin-layer placement in marshes, development of living shorelines, and utilization of spoil for future post-storm repairs or assistance in the stabilization of areas where shoreline erosion was problematic. The County Manager explained currently there was no request for funding, rather approval of the proposals to move towards the grant cycle process. Upon completion of the grants, staff would later present a request for funding of approximately $100,000 to move forward with projects. Commissioner Tobin described a northern part of the Chesapeake Bay where a bird and oyster habitat had been developed with spoil material. County Manager explained there were current struggles with the Manteo project, with 65,000 cubic yards which needed disposal placement, and may have to be trucked out. Commissioner Ross asked about disposal options and Mr. Outten explained, until the studies were completed, the available option choices could not be delineated and some permitting processes could take ten years. Commissioner Couch added the ability to obtain the permits would be a significant first step to move forward with the projects. Mr. Willson noted there were some novel approaches for spoil, but it would take time and funding to evaluate. The proposals outline the costs long term to include initial permitting to be ready for upcoming projects and disposal options.
ITEM 5 – SOUTHERN DARE COUNTY CHANNEL MAINTENANCE AND DREDGE MATERIAL MANAGEMENT PERMITTING PROJECT
Brent Johnson, Waterways Admin., Proj. Mgr., requested approval for a grant submission to NC DEQ Shallow Draft Navigation Grant to assist in the cost share for the Southern Dare County Channel Maintenance and Dredge Material Management Permitting Project.

ITEM 6 – CENTRAL DARE COUNTY CHANNEL MAINTENANCE AND DREDGE MATERIAL MANAGEMENT PERMITTING PROJECT
Brent Johnson, Waterways Admin., Proj. Mgr., requested approval for a grant submission to NC DEQ Shallow Draft Navigation Grant to assist in the cost share for the Central Dare County Channel Maintenance and Dredge Material Management Permitting Project.

MOTION
Commissioner House motioned to approve both APTIM proposals to allow for the submission of the grants for both the Central Dare County and Southern Dare County channel areas for maintenance and dredge material management permitting projects described in Item 5 and Item 6.
Commissioner Tobin seconded the motion.
VOTE: AYES unanimous

ITEM 7 – REQUEST FOR LATE APPLICATION FOR 2019 PROPERTY TAX EXEMPTION OR EXCLUSION
Assistant County Assessor, Hosea Wilson, and Maggie Dennis, Sr. Property Appraiser outlined a late application for tax relief for Wanda M. Best and explained the circumstances related to its late filing and request for tax relief. The taxpayer’s husband had died and they had qualified for relief in 2017. Due to the change in ownership after her husband’s death, she needed to requalify and her health prevented the timely filing.

MOTION
Vice Chairman Overman motioned to accept the late application of Wanda M. Best and approve the 2019 property tax relief request.
Commissioner Ross seconded the motion.
VOTE: AYES unanimous

ITEM 8 – RELEASE FOR SETTLEMENT OF STATE ATTORNEY GENERAL’S LAWSUIT VERSUS UBS AG (Att. #2)
Mr. Outten, outlined that after the termination of two basis swaps and two swaptions with UBS AG in 2011, there had been two lawsuits filed against UBS AG alleging manipulation of interbank offering rates and LIBOR, which would have lowered counterparty’s savings. The first lawsuit, a class action suit, had been settled with the County receiving $20,089. The second lawsuit, brought by forty-one State attorney generals against USB AG, had been settled and Dare County’s share would be $111,454.23.

MOTION
Commissioner House and Bateman motioned to approve the release and authorize the County Manager to execute the release.
Commissioner Tobin seconded the motion.
VOTE: AYES unanimous
ITEM 9 – CONSTRUCTION MANAGER AT RISK CONTRACT FOR COLLEGE OF THE ALBEMARLE PROJECT
County Manager outlined staff had reviewed both the contract and general conditions of the Barnhill Contracting Company and made changes consistent with the Animal Shelter and DHHS contracts recently approved. An amendment to the capital project budget in the amount of $109,089 for preconstruction services fee was also presented.

MOTION
Vice Chairman Overman motioned to approve the contract, authorize the County Manager to execute same and adopt the amendment to the capital project ordinance. Commissioner Couch and House seconded the motion.
VOTE: AYES unanimous

ITEM 10– UNC CHAPEL HILL SCHOOL OF GOVERNMENT – ESSENTIAL HOUSING NEEDS PRE-DEVELOPMENT & OPPORTUNITY SITE IDENTIFICATION
County Manager explained the UNC School of Government, through their Development Finance Initiative (DFI) offered predevelopment partnerships to communities which evaluate opportunities to provide essential housing units affordable to various income levels. DFI provided a two-phase proposal with scope of services, timeline and cost estimates for consideration. Vice-Chairman Overman and Commissioner Ross had joined the County Manager recently and discussed the programs available through UNC SOG. They offered a two-phase proposal, which included attracting and soliciting the market and developers, identification of sites, eligibility of tax credits together with income demographic study. Commissioner Ross asked about the timeline for the process and the County Manager advised the short term would be approximately 90-120 days with an anticipated term of 60-90 days for the Bowserstown site. Commissioner Ross endorsed the proposal and added UNC provide their unbiased, properly motivated assistance to counties with this service across the state. Vice-Chairman Overman indicated the group also commits themselves throughout the projects’ progression. Commissioner House added other counties that had utilized the NC SOG development suggestions had returned high recommendations.

MOTION
Vice Chairman Overman motioned to move forward with the presented proposal from UNC Chapel Hill School of Government.
Commissioner Ross seconded the motion.
VOTE: AYES unanimous

NCDOT HIGHWAY WBS ELEMENT NO.  50196.2.2

TRANSPORTATION IMPROVEMENT PROGRAM NO.  

COUNTY  Dare

This agreement made this ________________ day of _____________, __________, by and between the Department of Transportation, an agency of the State of North Carolina, hereinafter referred to as the DEPARTMENT, and Dare County Water Inc. hereinafter referred to as the COMPANY:

W I T N E S S E T H:

THAT WHEREAS, the DEPARTMENT will submit a project for construction as follows:

TIP Project R-5738 W. Kitty Hawk Road

known as route SR 1208 in Dare County, North Carolina to be designated as N.C. State Highway Project and/or WBS Element 50196.2.2 and, WHEREAS, the construction of said project will require certain adjustments to be made to the existing facilities of the COMPANY;
NOW, THEREFORE, in order to facilitate the orderly and expeditious
relocation of the said facilities of COMPANY, the DEPARTMENT and the
COMPANY have agreed as follows:

1. That the scope, description, and location of work to be undertaken by the
COMPANY are as follows

Two Directional Drill of 6" Fusible PVC Waterline

2. That any work performed under this agreement shall comply with
DEPARTMENT's "POLICIES AND PROCEDURES FOR ACCOMMODATING
UTILITIES ON HIGHWAY RIGHTS OF WAY” dated January 1, 1975, and such
amendments thereto as may be in effect at the date of this agreement. The work to
be performed by the COMPANY shall conform with Federal Highway
Administration's Federal-Aid Policy Guide, Subchapter G, Part 645, Subpart A
hereinafter referred to as FAPG dated December 9, 1991, and such amendments
thereto as may be in effect at the date of this agreement. The provisions of said
FAPG and amendments thereto are incorporated in this agreement by reference as
fully as if herein set out. Any work performed under this agreement not in
compliance with FAPG shall constitute unauthorized work and the DEPARTMENT
shall be relieved of participating in the costs of such unauthorized work unless such
work is done pursuant to a supplemental agreement attached to and made a part
hereof.

3. That the COMPANY will prepare an estimate, broken down as to
estimated cost of labor, construction overhead, materials and supplies, handling
charges, transportation and equipment, rights of way, preliminary engineering and
construction engineering, including an itemization of appropriate credits for
salvage and betterments, and accrued depreciation all in sufficient detail to provide
the DEPARTMENT a reasonable basis for analysis. Unit costs, such as broad
gauge units of property, may be used for estimating purposes where the
COMPANY uses such units in its own operations. The COMPANY will also
prepare plans, sketches or drawings showing their existing facilities, temporary
and permanent changes to be made with reference to the DEPARTMENT's new
right of way using appropriate nomenclature, symbols, legend, notes, color
coding or the like. The before mentioned estimate and plans are attached
hereto and made a part hereof. The DEPARTMENT will not reimburse the
COMPANY for any utility relocations or changes not necessitated by the
construction of the highway project, nor for changes made solely for the benefit or
convenience of the COMPANY, its contractor, or a highway contractor.

4. That the DEPARTMENT's authority, obligation, or liability to pay
for relocations as set forth in this agreement is based on the COMPANY having a
right of occupancy in its existing location by reason of the fee, an easement or other
real property interest, the damaging or taking of which is compensable in eminent
domain.
5. That payment for all work done hereunder shall be made in accordance with the requirements of FAPG unless payment is being made pursuant to a supplemental agreement attached to and made a part of this agreement.

6. That the construction work provided for in this agreement will be performed by the method or methods as specified below:

☐ BY COMPANY’S REGULAR FORCE: The COMPANY proposes to use its regular construction or maintenance crews and personnel at its standard schedule of wages and working hours in accordance with the terms of its agreement with such employees.

☐ BY EXISTING WRITTEN CONTINUING CONTRACT: The COMPANY proposes to use an existing written continuing contract under which certain work as shown by the COMPANY’s estimate is regularly performed for the COMPANY and under which the lowest available costs are developed.

☑ BY CONTRACT: The COMPANY does not have adequate staff or equipment to perform the necessary work with its own forces. The COMPANY proposes to award a contract to the lowest qualified bidder who submits a proposal in conformity with the requirements and specifications for the work to be performed as set forth in an appropriate solicitation for bids.

7. a. It is contemplated by the parties hereto that the construction of this State Highway Project will begin on or about the ___ day of __________, ___.

b. Based on the best information available at the present time to the COMPANY, indicate applicable paragraph below:

☐ Materials are available and it is expected that work will be complete prior to highway construction.

☐ All work will take place during highway construction and arrangements for said work will be coordinated with highway construction operations at preconstruction conference.

☐ Work will begin promptly upon notification by DEPARTMENT; however, it is not expected to be complete prior to highway construction. Any remaining work will be coordinated with highway construction operations at preconstruction conference.

☑ Other (Specify)

To be completed as soon as possible
8. That the method used by the COMPANY in developing the relocation costs shall be as indicated by Paragraph (a), (b), or (c) as follows:
   a. Actual direct and related indirect costs accumulated in accordance with a work order accounting procedure prescribed by the applicable Federal or State regulatory body.
   b. Actual direct and related indirect costs accumulated in accordance with an established accounting procedure developed by the COMPANY and approved by the DEPARTMENT.
   c. On a lump-sum basis where the estimated cost to the DEPARTMENT does not exceed $100,000.00. Except where unit costs are used and approved, the estimate shall show such details as man-hours by class and rate; equipment charges by type, size, and rate; materials and supplies by items and price; and payroll additives and other overhead factors.

9. Indicate if (a) or (b) is applicable:
   a. That the replacement facility is not of greater functional capacity or capability than the one it replaces, and includes no COMPANY betterments.
   b. That the replacement facility involves COMPANY betterments, or is of greater functional capacity or capability than the one it replaces.

10. That the total estimated cost of the work proposed herein, including all cost to the DEPARTMENT and COMPANY less any credit for salvage, is estimated to be $30,528.55

The estimated non-betterment cost to the DEPARTMENT, including all cost less any credits for salvage, betterments, accrued depreciation and additional work done by the COMPANY will be $30,528.55

The estimated cost to the COMPANY including betterments, and any additional work done by the COMPANY will be $0

(The above costs shall be supported by attached estimate and plans)

11. That in the event it is determined there are changes in the scope of work, extra work, or major changes from the statement of work covered by this agreement, reimbursement shall be limited to costs covered by a modification of this agreement or a written change or extra work order approved by the DEPARTMENT.
12. Periodic progress billings of incurred costs may be made by COMPANY to the DEPARTMENT not to exceed monthly intervals; however, total progress billing payments shall not exceed 95% of the approved non-betterment estimate. Progress billing forms may be obtained from the Area Utility Agent.

13. One final and detailed complete billing of all cost shall be made by COMPANY to the DEPARTMENT at the earliest practicable date after completion of work and in any event within six months after completion of work. The statement of final billing shall follow as closely as possible the order of the items in the estimate portion of this agreement.

14. That the DEPARTMENT shall have the right to inspect all books, records, accounts and other documents of the COMPANY pertaining to the work performed by it under this agreement at any time after work begins and for a period of 3 years from the date final payment has been received by the COMPANY.

15. That the COMPANY obligates itself to erect, service and maintain the facilities to be retained and installed over and along the highway within the DEPARTMENT right of way limits in accordance with the mandate of the Statute and such other laws, rules, and regulations as have been or may be validly enacted or adopted, now or hereafter.

16. That if, in the future, it becomes necessary due to highway construction or improvement to adjust or relocate utilities covered in this agreement being relocated at DEPARTMENT expense that are crossing or otherwise occupying highway right of way, the non-betterment cost of same will be that of the DEPARTMENT.

17. That if, at any time, the DEPARTMENT shall require the relocation of or changes in the location of the encroaching facilities covered in this agreement being relocated at COMPANY expense, the COMPANY binds itself, its successors and assigns, to promptly relocate or alter the facilities, in order to conform to the said requirements, without any cost to the DEPARTMENT.

18. That the COMPANY agrees to relinquish their rights in that portion of right of way vacated by their existing facilities now absorbed within DEPARTMENT right of way.

19. Proper temporary and permanent measures shall be used to control erosion and sedimentation in accordance with all local, State and Federal regulations.

20. The COMPANY agrees to comply with the environmental rules and regulations of the State of North Carolina. Violation to the NC Sedimentation Pollution Control Act, Clean Water Act, NC Coastal Management Act, or other environmental commitment outlined in the project permits may result in work stoppage, penalties and/or construction delays.

21. The COMPANY agrees to comply with Buy America. United States Codes (USC) 313 and Code of Federal Regulations 23 CFR 635.410: Requires the use of domestic steel and iron in all federally funded construction projects.
IN WITNESS WHEREOF, the parties hereby have affixed their names by their duly authorized officers the day and year first above written.

Cheryl,

attached are three applications as requested.

Karen Loopman-Davis, Outer Banks Brewing Station
Madalyn Roberts, Barnyard Foods
Donny King, Ocean Blvd.

For what it is worth, Karen has my endorsement based on her activity with our association and her long connection with the community. While Donny has served this seat before, he has had limited activity with us the past couple years.

Also, I would like to invite the county commissioners to our February meeting at Capt. Georges at 3pm. Our group has expressed interest in developing better relations with our local government officials. Our meeting are limited to 1 hour, but perhaps we can offer a more casual social setting at Capt Georges after the meeting as well.

I will reach out to Bob Woodard as well.

Thank you.

BIO
Reide Corbett was born and raised in coastal North Carolina. After receiving his PhD from Florida State University and spending a short time at Tulane University in New Orleans, he returned to NC as an Assistant Professor at East Carolina University. He is now jointly appointed between the Department of Geological Sciences, Institute for Interdisciplinary Coastal Sciences and Policy at East Carolina University and the UNC Coastal Studies Institute. He is a coastal oceanographer/geochemist with an overall scientific interest in the cycling of biologically active constituents (e.g., carbon, nitrogen, phosphorus) in coastal and open ocean environments. He is especially interested in evaluating and quantifying pathways of nutrient delivery to the coastal ocean that have been either under estimated or potentially ignored altogether, such as groundwater discharge and advective transport associated with sediment disturbances. These processes may play a critical role in understanding biogeochemical cycles and therefore must be described in order to fully constrain these cycles locally and globally. Ultimately, his hope is that information acquired through this research will lead to a clearer understanding of estuarine and coastal processes, providing better management and preservation of these critical environments.

EDUCATION
1999: Ph.D. in Chemical Oceanography (Geochemistry) under the direction of William C. Burnett; Florida State University
1996: M.S. in Chemical Oceanography (Geochemistry); Florida State University
1994: B.S. in Chemistry; Florida State University

PROFESSIONAL EXPERIENCE
2012-pres. UNC Coastal Studies Institute, Wanchese, NC
2007-pres. Institute for Coastal Science and Policy, East Carolina U.
2000-2012 Department of Geological Sciences, East Carolina U.
1999-2000 Department of Geology, Tulane U.

RESEARCH INTERESTS
My overall scientific interest is to better understand the cycling of biologically active constituents (e.g., carbon, nitrogen, phosphorus) in coastal and open ocean environments. In addition, I am interested in the role humans and nature play in shaping the coastal zone. Specific areas of my on-going research include those focused on:
- Naturally-occurring radionuclides as tools for quantifying rates of sedimentary and biogeochemical processes
- Sedimentary and geochemical processes in coastal environments
- Investigations of the discharge of groundwater into the coastal zone
- Deposition, remineralization and burial of carbon and nutrients in coastal margins
- Coastal Hazards

CURRENT RESEARCH PROJECTS
Assessing offshore sand resources for North Carolina. Bureau of Ocean & Energy Management Research to support design and siting of deposition areas for dredged material from the Rodanthe Emergency Channel. NC DoT.
Sand Resource Data Assessment for Coastal State Waters of North Carolina. NC Division of Coastal Management.

Subject: FW: Tourism board application

Ms. Anby,

Attached please find my application for an at large position on the Dare County Tourism board which I believe is an opening that the commissioners will be looking to fill in the near future.

I am ready and willing to participate again on this board where I believe I have been an effective representative of the tourism industry in the past.

I served on this board previously from 2000 through 2003 when I served one year as the vice-chairman of that board, and I served again from 2012 through 2015 when I served as board chairman.

I am copying Mr. Overman and Mr. Woodard as I have indicated those gentlemen would serve as references for me in this application. I have also provided Mr. Ronnie Sloan as a reference. He is the President of the Outer Banks Hospital and currently serves as chairman of the Outer Banks Chamber of Commerce. I work with Ronnie on his Hospital Development Council.

Please let me know if you need anything else from me on this application.

All the best!

Tim
